PROFESSIONAL SEAL
To the best of our knowledge and belief the drainage of the surface waters will not be changed by the construction of this project or any part thereof, or that such surface waters drainage will be changed, reasonable provisions have been made for the collection and diversion of such surface waters into public areas or drains which the developer has a right to use, and that such surface waters will be planned for in accordance with generally accepted engineering practices so as to reduce the likelihood of the damage to the adjoining property because of the construction of the project.
